

Dear Sir/ Madam

SUBJECT: RECOMMENDATION LETTER FOR NABLA H

I hereby confirm that Nabla H provided hydrogeological services for Kriel Colliery.

The project included drilling of monitoring boreholes into the old underground mine workings. The project ran from the 1st December 2020 until 31st March 2021. The value of the project was for R703 138 excl. VAT.

Recommendation

Nabla H is knowledgeable of the challenges relating to groundwater monitoring requirements for mining operations. Their input into the construction of boreholes illustrated their understanding of monitoring needs for operational and post-closure groundwater monitoring.

The project was delivered with great quality and safely and I would gladly recommend Nabla-H to anyone for their services.

You may contact the undersigned to confirm the validity of the above on the following: +27 (0) 17 617 1157 and maphuti.boloka@seritiza.com.

Kind regards
Maphuti Boloka
Environmental Superintendent
